George Creel-expensive luxury. That's what the chairman of the committee on public information ha

Congress, or rather that part of which would side-track importan and urgent legislation any day for a controversy with anything Wilson ian, has now begun to waste time and printer's ink denouncing Mr. Creel. Much to Criticise.

There is much about Mr. Creel tha is a proper subject for criticians, wet this has until now been the province and prerogative of the newspapers and magazines, many of whom in moments of pardonable vehemence have taken issue with the Government's crude methods in trying to arouse the people's interest in the war.

The intrusion by Congress into a controversy which the press had in-dulgently regarded as all its own came, however, not through any de-sire to assist in the increasant effort that is being made by the newspapers to make public officials see the wis lic speech by Mr. Creel on the subject of America's pre-war policies.

No Stenographer Present. Unfortunately for A Creek there was no stenographer present, and

would be "glad to his dying day that war." What Mr. Creel actually said, according to his own version, was a familiar argument which, indeed, will familiar argument which, indeed, will ington. The "fron monster" will duplimate they come to write of the justice of America's cause. For the head of the Committee on Public Information claims that he said he was glad no claims that he said he was glad no man could raise his voice in this country and say with truth that America started this war, that America wanted this war or that America had any selfish object to had any selfish object in going to war. For what better proof could there be of America's disinclination

go to war then her own unpreparedness for war. Quite n Difference.

That's quite a different thing, of sourse, from what Mr. Creel was quoted as saying. Senator Borah, in speech supporting the war resolu same thing. Whether America should suit of a seaplane accident in France or should not have prepared for war historical fact that America trusted nounced today Germany so long and did not prepare for war is quite another. That fact, together with the unpreparedness of (Continued on Page 11, Column 1.) ruary 1, of this year,

Lillers and Bethune. Fighting is continuing along por-tions of this front, but, according to a United Press dispatch from William Philip Simms, the German attacks are becoming more feeble, while the British resistance is strengthening.

Borne Out by Haig. This was borne out by Haig's official report today, in which he said that seven successive enemy attacks northwest of Merville (in the fringe of the Nieppe forest) broke down. One of the attacks, he said, consisted

of five waves of infantry. OF DIATTIMO Haig's report may be regarded as the most optimistic in several days. The capture of Neuve-Eglise is of minor importance, as the city has been fought and refought over so much the defensive value is nil.

That the British have held on other points of the Flanders front and the British have been able even improve their positions by counter attacks in-dicates a dwindling in the force of the enemy assaults.

Drive at Ypres.

The enemy, it is believed, will continue to drive at Bailleul, on the northern edge of the Flanders salient at St. Venant in the center, and at Bethune, in the south-

ern edge for a few days.

But the heaviest assaults are expected "There are more phases of the case than were revealed in the warrant. The bigger developments will be dito be switched against Tpres itself, or southward against Vimy and Arras. The British positions around Tpres are re-tarding the Flanders drive, while Vimy Godsol's rearrest came about less rected by Washington authorities than two hours before he was to have the wear of the consider a man dangerous who appeared before United States Commakes statements attributed to Bing and the consideration of the consideration ridge and Arras hold up the Picardy drive by threatening Hindenburg's line of communication.
